

# Outside

Outside is implemented in 5 European countries (Italy, Belgium, Croatia, Lithuania, United Kingdom). The partnership is composed of 4 schools and 5 organisations active in the field of sustainable development and Entrepreneurship

## Young entrepreneurs of Merkinė

We live in the unique region of Merkinė. We are surrounded by wonderful nature. Tall pines, watery rivers and lakes, colourful meadows are things we are very proud of. Therefore, it is clear that a clean environment is very close to our hearts. We wish that people would understand how important a clean environment is and contribute to its cleaning. The young entrepreneurs from Merkinė are grateful to the Outside project. It promoted the development of four sustainable business ideas and helped implement them.

## Traditional Lithuanian toys

## Merkinės Vincas Krėvės gymnasium

## Rope roller

The "Rope roller" is a toy that allows you to strengthen your arm muscles by rolling around with your friend. The first one to make it to the leather piece wins. You can also make a small bag out of any material and put a candy or anything else you like inside.

## Pinocchio's nose

"Pinocchio nose" is a fun and active way to spend your time. It is a game where there is a stick with a rope and a paper circle attached to the rope. You have to get the circle by throwing it on the stick.

You can have a small tournament with your friend where you get 1 point for an accurate throw.

The first one to score 10 or more points wins.

## Mushroom spoon

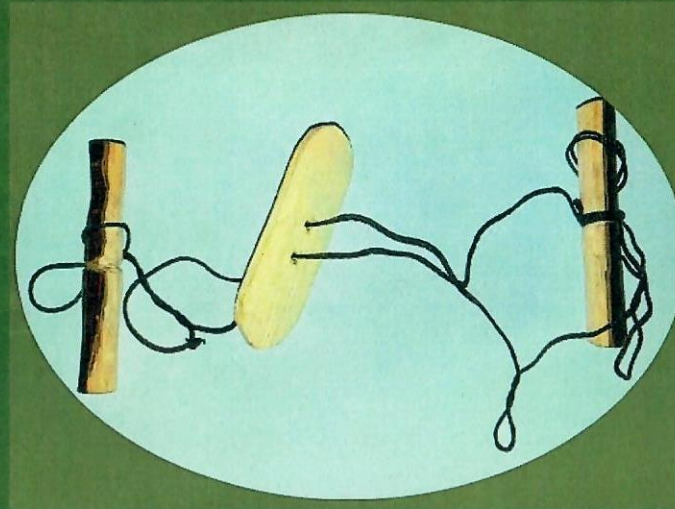

"Mushroom spoon" is just like "Pinocchio's nose", except you need to get a mushroom in the spoon, not a ring on the stick.

# Our products

## About us

We are young entrepreneurs from Merkinė and our goal is to create an environmentally friendly company. We want to encourage people to preserve nature in the city. We will produce traditional wooden toys that are environmentally friendly and attract people. We will promote active and meaningful leisure activities. Our toys will be easy to make so that anyone will be able to make them.

"Burgzlys" consists of three wooden parts and a string. It only requires a little woodworking to make it. Playing with it promotes active leisure because it works the muscles of the player's hands. Besides, "Burgzlys" is an original toy that can be made quickly and easily, and you will not find it anywhere else.
