

**YOUNG  
ENTREPRENEURS  
OF MERKINĖ**

We live in the unique region of Merkinė. We are surrounded by wonderful nature.

Tall pines, watery rivers and lakes, colourful meadows are things we are very proud of.

Therefore, it is clear that a clean environment is very close to our hearts.

We wish that people would understand how important a clean environment is and contribute to its cleaning.

The young entrepreneurs from Merkinė are grateful to the Outside project. It promoted the development of four sustainable business ideas and helped implement them.

**OUTSIDE**

Outside is implemented in 5 European countries (Italy, Belgium, Croatia, Lithuania, UK). The Partnership is made up of 4 Schools and 5 Organisations active in the field of sustainable development & entrepreneurship

**3D  
SOUVENIRS**

YOUNG ENTREPRENEURS  
OF MERKINĖ

# ABOUT

We are Young entrepreneurs of Merkinė and our goal, is to create eco-friendly business. To make that goal come true, we will use one of modern inventions - 3D Printer, a tool which can turn plastic straw into figure. We use 3D modeling softwares to create something from our imagination and after that, we leave the printer do all of the work.

## OUR PRODUCTS

**RINGS**  
WE CAN CREATE THE RING OF YOUR DREAMS. IT COULD HAVE YOUR INITIALS OR EVEN A GIANT PLASTIC DIAMOND ON TOP

**BROOCH**  
THESE TINY HEARTS WITH WHICH YOU'LL BE ABLE TO SHOW APPRECIATION TO YOUR COUNTRY.

**UNICORN**  
WHY UNICORN, YOU MIGHT ASK. THE SYMBOL OF MERKINE IS A UNICORN, SO IT WOULD BE A GREAT MEMORY FOR EVERYONE WHO VISITS MERKINE

**MERKINĖ VINCAS  
KRĖVĖ GYMNASIUM**

## 3D SOUVENIRS

**YOUNG ENTREPRENEURS OF  
MERKINĖ**

## WHAT WE DO

You have probably already heard about 3D printers from someone. But have you ever thought of its full potential? We did. We have found a way to use 3D printers to their full potential by creating eco-friendly souvenirs. It's not just plastic. It's infinite potential. We will use eco-friendly plastic made out of recycled materials and create something unique. Something... No one has ever seen before using our 3D modeling software. After that, it will become something amazing you could physically touch! From digital to physical, everything is possible with a 3D printer!

## WHAT WE PRODUCE

### FUN TOYS

### Accessories

### Little figures
