"Resurrect for a second life"

Merkinė V.Krėvė gymnasium

About us

We are the trio of girls who came up with the idea of giving a second chance to things that many people consider useless. Each of us has a unique creativity and we want to develop ideas that are helpful for each of us. We are also nature lovers who try to find ways to help our mother nature.

Project: "OUTSIDE - Open commUnities for Sustainable DevelopmEnt" Nr. 2020-1-HT02-KA201-079003 - Nr. 2020-1-HT02-KA201-079003

Our product

These candles are made from canning jars or unusable glass containers filled with natural beeswax to make your home warmer.

These cloth bags will replace plastic bags. If you replace these bags with plastic bags, you will not only do something for the environment, but you will also look cooler and more unique.

Fabric table napkins will decorate your home and add more colour.

How did we do?

It was not hard for us to come up with this idea. The harder part was how to bring our business plan to life. We had several ideas on how to make our project happen, and we wanted to choose the best option so that there would be the best result.
